

## Schedule 2021

---

This may change, so keep an eye on the MyAberdeen announcements. As well as the uncertainties of Covid-19, Flurina, Nick and Tim must juggle their teaching for GG2509 with that for other courses, and also have other responsibilities. Thank you for your understanding.

The usual lecture slots for GG2509 are **Tuesdays at 12 noon** and **Thursdays at 11 a.m.** Although these do not show in MyTimetable, we know that some students like to have lectures live online. So, when we can, we will deliver our lectures live in Collaborate. Attendance is optional. Recordings will be available for everyone afterwards.

Attendance at the online surgeries to support Exercise 1, 2 and 3 is optional: i.e., come along if you need help.

Week	Day	Date	Who	What
26	Tue	26-Jan	Tim	1) Course Introduction
26	Thu	28-Jan	Nick	2) History of the Environmental Movement
27	Tue	02-Feb	Nick	3) Gaia and Earth System Science
27	Thu	04-Feb	Tim	4) Population
28	Tue	09-Feb	Tim	5) Introduction to Exercise 1

36-38				Easter holidays
39	Fri	30-Apr		Poster submission deadline: details to be confirmed
40				Poster peer assessment
41	Wed	12-May		Poster peer assessment deadline

[continues...]

**Assessments**

- Exercise 1: Laki (quantitative methods and skills) – individual write-up for submission to Turnitin
- Exercise 2: Representations of the environment (qualitative methods and skills) – individual write-up for submission to Turnitin
- Exercise 3: Poster case study. We will confirm details of how this will work later. Because of Covid-19, we cannot run it as we used to: i.e., we must switch to online submission and display of posters and online peer assessment.
- Make sure that you get and keep your electronic receipt as proof of online submission. If you do not have this, we don't have your work!

**Penalties for late work**

Irrespective of different procedures in other departments... Work that is submitted late without good reason will be penalised as follows:

- Within 48 hours of the deadline set: maximum score of CGS D3 (grade point 9)
- More than 48 hours after the deadline set: maximum score of CGS G2 (grade point 1)

**Extensions**

If you have an official provision for agreed extensions, contact Flurina in good time to discuss. Otherwise, Geography and Environment does not give extensions. We just do not penalise work that is submitted late for good reason – providing that students follow the appropriate reporting procedures.

For further details, see the link 'Medical or Equivalent Disruption' in the left-hand margin of the GG2509 MyAberdeen site.
