V tajničke sa nachádza prehistorické zviera:

| $x \leq \frac{45}{4}$ | <i>x</i> ≤ 2 | nemá riešenie | $x \le \frac{45}{4}$ | $x \ge 3$ | $x > \frac{1}{6}$ | $x < \frac{89}{28}$ | $x > \frac{1}{6}$ | $x \leq 2$ |
|-----------------------|--------------|------------------|----------------------|-----------|-------------------|---------------------|-------------------|------------|

Riešte nerovnice v množine R:

1)
$$3x - 7 \le 5x - 13$$

$$2)x - 8 + 2.(x + 1) \le 0$$

3)
$$7x - 2.8 < 2.(2x + 3) - 1.5 + 3x$$

$$4)\frac{1}{3}.(3x-2)+\frac{1}{6}.(12x+1)>0$$

$$5)\frac{59}{4} - \frac{x}{2} \ge 4x - \frac{31 + 10x}{4}$$

6)
$$\frac{2x-1}{5} - \frac{3-2x}{4} < 3 - \frac{x-1}{2}$$
